Advanced Energy

## DEFIANT FUTURE

# DF150 Series

## KEY FEATURES

- Fully enclosed, conduction- or convection-cooled 160 W power supplies with 27 V, 5.93 A output
- MIL-STD-810H compliant
- MIL-STD-461G compliant: CE102, RE102, CS101, CS114, CS115, CS116, CS118, RS103

**DF150 is the first product in the new Defiant Future family**, combining ultra-ruggedized performance with the accessibility of a standard commercial defense power solution. Backed by extensive MIL-STD certification and rigorous validation testing, this 160 W AC-DC power supply is engineered to perform in extreme environments. Its compact, IP67-rated design delivers reliable power for demanding applications across the defense, industrial, telecommunications, transportation, and energy sectors.

**RUGGEDIZED RELIABILITY**

**PRECISION POWER**
