

## Features

- 85~305Vac input with PFC(277Vac available)
- No load power consumption <0.75W~1W by R.C.
- Global certificates in multi-fields (ITE 62368-1, Medical 60601-1, Household 60335-1, Industrial 61558-1/2-16/61010-1, Energy converter 62477-1)
- 200% peak power capability(12~60V models)
- High efficiency up to 95%
- -40~+85°C wide range operation temperature(> +60°C derating)
- Extremely low leakage current<350µA, 2 x MOPP, suitable for BF medical applications
- Built-in constant current limiting circuit
- Protections: Short circuit / Overload / Over voltage / Over temperature
- Forced air cooling by built-in DC fan with noise <45dB and fan ON/OFF control
- Built-in Remote ON/OFF control/Remote Sense/ DC OK signal
- Over voltage category III (OVC III)
- Operating altitude up to 5000 meters
- Conformal coating
- 5 years warranty

## Applications

- Industrial automation machinery/control system
- Security system
- Mechanical and electrical equipment
- Electronic instruments, equipments or apparatus
- Network equipment
- Telecom devices
- Power sourcing equipment of PoE
- Home automation
- Medical devices
- Charging application

## Description

The NSP-750 series is a 750W AC/DC power supply with PFC function, designed for high reliability and suitable for multiple industries. Key features include: compact size (199\*105\*41 mm) for better space utilization in system installations, ultra-wide input range of 85~305Vac for global compatibility, up to 95% efficiency and low standby power consumption (<0.75W~1W by models) for energy-saving and carbon reduction, constant current design with 200% peak power capability, wide operating temperature range from -40 to +85°C (+60°C at full load), compliance with OVCIII, built-in Remote Control/Remote Sense/DC OK signal, internal PCB coating, complete protections, certifications for multiple safety standards including 62368-1, 60601-1, 61558-1, 60335-1, 62477-1, and 61010-1, as well as 2 X MOPP compliance and extremely low leakage current (<350µA). It is suitable for BF-rated medical equipment and comes with a 5-years warranty, making it a highly cost-effective solution for industrial power supply needs.

| <b>NOTE</b>   |   |  |            |            |            |            |   |  |  |
| 1. All parameters NOT specially mentioned are measured at 230Vac input, rated load and 25°C of ambient temperature.<br>2. Ripple & noise are measured at 20MHz of bandwidth by using a 12" twisted pair-wire terminated with a 0.1uF & 47uF parallel capacitor.<br>3. Tolerance: includes set up tolerance, line regulation and load regulation.<br>4. Derating may be need under low input voltages. Please refer to "STATIC CHARACTERISTIC" sections for details.<br>5. The Regulatory Compliance Mark (RCM) is applied on a voluntary basis. The equipment meets the relevant IEC or AS/NZS standards, or AS/NZS 3820 where applicable. The use of the RCM mark complies with AS/NZS 4417.1.<br>6. The power supply is considered a component which will be installed into a final equipment. All the EMC tests are been executed by mounting the unit on a 360mm*360mm metal plate with 1mm of thickness. The final equipment must be re-confirmed that it still meets EMC directives. For guidance on how to perform these EMC tests, please refer to "EMI testing of component power supplies." (as available on <a href="https://www.meanwell.com/Upload/PDF/EMI_statement_en.pdf">https://www.meanwell.com/Upload/PDF/EMI_statement_en.pdf</a> )<br>7. Some factory or model may not have the BIS logo, please contact your MEAN WELL sales for more information.<br>8. MOPP is suitable for 100-240Vac input only.<br>9. The ambient temperature derating of 3.5°C/1000m with fanless models and 5°C/1000m with fan models for operating altitude higher than 2000m(6500ft)..<br>※ Product Liability Disclaimer: For detailed information, please refer to <a href="https://www.meanwell.com/serviceDisclaimer.aspx">https://www.meanwell.com/serviceDisclaimer.aspx</a> |   |  |            |            |            |            |   |  |  |

■ Block Diagram

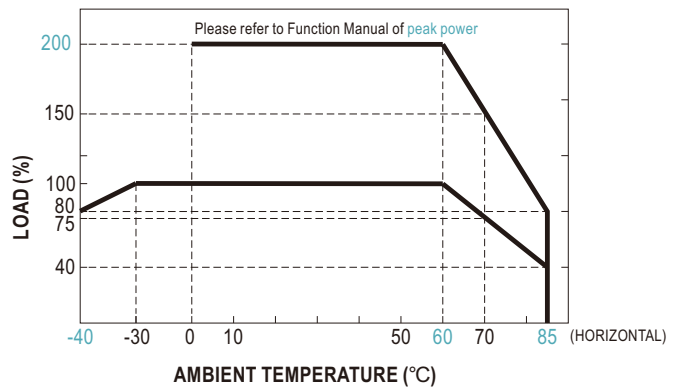

■ Derating Curve

Suitable for 100/110/115/120Vac System (85~135Vac)

Suitable for 220/230/240/277Vac System (180~305Vac)

Note: Below 100Vac @ -30°C there may be a restart situation within 3 seconds after power-on

■ Output Derating vs Input Voltage

**Function Manual**

**1. Peak Power**

$$P_{av} = \frac{P_{pk} \times t + P_{npk} \times (T-t)}{T} \leq P_{rated}$$

$$Duty = \frac{t}{T} \times 100\% \leq 35\%$$

$$t \leq 5 \text{ sec}$$

$P_{av}$  : Average output power (W)  
 $P_{pk}$  : Peak output power (W)  
 $P_{npk}$  : Non-peak output power (W)  
 $P_{rated}$  : Rated output power (W)  
 $t$  : Peak power width (sec)  
 $T$  : Period (sec)

**For example (24V model) :**

$V_{in} = 200Vac$      $Duty_{max} = 5\%$

$P_{av} = P_{rated} = 750W$

$P_{pk} = 1500W$

$t \leq 5 \text{ sec}$

$$T \geq \frac{5 \text{ sec}}{5\%} \geq 100 \text{ sec}$$

$$P_{npk} \leq \frac{T P_{av} - t P_{pk}}{T-t}$$

$P_{npk} \leq 710W$

Note: When the output voltage is adjusted to the upper limit, the peak power is 150% rated power.

### 2.Remote Control

The PSU can be turned ON/OFF by using the "Remote Control" function with external switch.

|               |  |
|---------------|--|
| PSU Vo Status | Between RC+ (pin11) and 5V-AUX(pin13) on CN1 |
| POWER ON      | SW close (Short)                             |
| POWER OFF     | SW open (Open)                               |

### 3.Remote Sense

The remote sensing compensates voltage drop on the load wiring up to 0.3Vdc.

### 4.DC\_OK signal

DC\_OK is a collector shorted signal. It is used by an optocoupler in the power supply which indicates the output status of the power supply as exhibited below.

|               |                        |
|---------------|------------------------|
| PSU Vo Status | Photo transistor       |
| POWER ON      | Conduct(Low impedance) |
| POWER OFF     | Open(High impedance)   |

Optocoupler Rating(max.) 15Vdc/10mA resistive load

■ Mechanical Specification

(Unit: mm, tolerance  $\pm 1$ mm)

Case No.980D

※ AC Input Terminal Pin No. Assignment

| Pin No. | Assignment            | Diagram | Screw Size | Maximum mounting torque |
|---------|-----------------------|---------|------------|-------------------------|
| 1       | AC/L or DC input +Vin |         | M3.5       | 8~10Kgf-cm              |
| 2       | AC/N or DC input -Vin |         |            |                         |
| 3       | FG $\oplus$           |         |            |                         |

※ DC Output Terminal Pin No. Assignment

| Pin No. | Assignment | Diagram | Screw Size | Maximum mounting torque |
|---------|------------|---------|------------|-------------------------|
| 4       | -Vo        |         | M5         | 10~12Kgf-cm             |
| 5       | +Vo        |         |            |                         |

※ Control Pin No. Assignment (CN1) : HRS DF11-14DP-2DS or equivalent

|  |                |                             |
|--|----------------|-----------------------------|
|  | Mating Housing | HRS DF11-14DS or equivalent |
|  | Terminal       | HRS DF11-14SC or equivalent |

| Pin No. | Function | Description   |
|---------|----------|---|
| 1       | RS+      | Positive sensing for remote sense.  |
| 2       | NC       | Reserve   |
| 3       | RS-      | Negative sensing for remote sense.  |
| 4,13    | 5V-AUX   | Auxiliary voltage output, 4.25~5.75Vdc, referenced to pin 6,8,14(G-AUX).<br>The maximum load current is 0.2A. This output is not controlled by the "remote ON/OFF control". |
| 5,7     | 12V-AUX  | Auxiliary voltage output, 10.2~13.8Vdc, referenced to pin 6,8,14(G-AUX).<br>The maximum load current is 0.8A. This output is not controlled by the "remote ON/OFF control". |
| 6,8,14  | G-AUX    | Auxiliary voltage output ground.<br>The signal return is isolated from the output terminals (+Vo & -Vo).  |
| 9       | DC OK+   | Positive sensing for DC OK.   |
| 10      | DC OK-   | Negative sensing for DC OK.   |
| 11      | RC+      | Turns the output on and off by electrical or dry contact between pin 11 ( RC+) and pin 13 (5V-AUX).<br>Short: Power ON, Open: Power OFF.                                    |
| 12      | RC-      | The output is internally connected to pin 6,8,14(G-AUX).  |

■ Accessory List

| No. | Item   | Quantity  |
|-----|--|---|
| 1   | Control function interface(CN1) mating wire along with NSP-750 (standard accessory) <div style="text-align: center;"> </div> | 1pcs/per model  |
| 2   | Bracket<br>MW'S Order NO. : PGG2MHS012<br>(By request accessory,should ordered seperately)                                   | <div style="text-align: center;"> </div> 4pcs/per model<br>(Please refer to Installation Diagram) |
| 3   | Terminal cover<br>MW'S Order NO. : PEE4TBC-03<br>(By request accessory,should ordered seperately)                            | <div style="text-align: center;"> </div> 1pcs/per model   |
